

PRIORITY BASED BUDGETING

Feature Report

March 2015

**VIBRANT AMENITIES AND
OPPORTUNITIES FOR ALL RESULT**

The priority based budgeting principles are designed to evaluate programs against the desired results of the City Council as well as against some key program attributes. Scores are assigned to each individual program based on how they influence each of the results and attributes. The desired results are assigned relative weights based on community input. Community-oriented programs are evaluated against different results than governance-oriented programs. The overall score for a program is a combination of the individual scores for each program based on their influence of the desired results (four for community programs and five for governance programs) and four program attributes.

This is the fifth of our periodic reports on the prioritization process results. Each report will focus on an individual attribute or result and how the programs in the City influence each one. The focus of this report is the result ***vibrant amenities and opportunities for all***. The format includes data in both a summary form and a detail form. The summary data is presented by department, but there is also a separate focus on General Fund data. The summary data includes some general observations or highlights. The detail data is provided down to the program level. With 1,082 community-oriented programs it is a voluminous list, but it may be helpful for either current or future reference in individual program evaluation. We have also included some dashboard views of the Resource Alignment Diagnostic (RAD) tool focusing on the vibrant amenities result which allows for a perspective of the costs by quartile.

By preparing these reports that focus on just one result or attribute we are able to focus on how the programs in the City influence each one. It should be helpful to see the scores by individual results and attributes to get a better sense of where a program may excel versus where it may have less influence. This also can help for the City to be able to validate whether the results and attributes that we use are appropriate and fully extensive.

QUARTILES

In priority based budgeting the programs of the City are distributed into quartiles 1 through 4 based on their overall score. Quartile 1 signifies that a program is most relevant to the City Council's overall desired results while quartile 4 signifies that a program is less relevant to those overall desired results. Data on quartiles is included in the dashboard views and the detailed list by program.

PROGRAM SCORING

Program scores are derived through a compilation of the individual score that each program is given to reflect its influence over the desired results of the City Council and key program attributes. The program influence over the desired results (four for community programs and five for governance programs) and the four program

attributes were all scored from 0 to 4 through a peer review process during 2014. The score for the four program attributes are equally considered and make up one third of the overall program score. The score for the program results are weighted based on community input and make up two thirds of the overall program score. The desired results (with their community weightings) and individual attributes are as identified below:

Desired Results

Community programs:

- Vibrant Amenities & Opportunities for All - 28.7%
- Safe Community - 26.4%
- Reliable, Innovative & Resilient Infrastructure - 25.3%
- Thriving Economic Climate - 19.5%

Governance programs:

- Ensure timely, responsive and efficient operations supporting city operations to be their best
- Provide clear, inclusive, transparent leadership & collaboration and develop & maintain strong partnerships
- Follow local, state and federal rules, regulations and mandates
- Protect, invest in and value the City's human and physical capital
- Prudently manage and responsibly leverage public funds

Attributes

- Mandate to provide the program
- Reliance on the City to provide the program
- Cost recovery of program
- Portion of the community served by the program

DEFINITIONS OF THE DESIRED RESULT “VIBRANT AMENITIES AND OPPORTUNITIES FOR ALL”

The City Council defined the desired result of Vibrant Amenities and Opportunities for all through identification of the following five result definitions:

- Community members can pursue and enjoy diverse, affordable and accessible entertainment and educational, arts, cultural, and recreational activities
- The physical and mental health of individuals and families are supported
- Opportunities to connect with others, within neighborhoods, and the community abound
- Information about services and opportunities is easily accessible
- People choose Longmont because we are a beautiful, welcoming community where people of all ages want to live, work, visit, play and can thrive

In scoring the programs against the desired results, key considerations include if the program influences the City's ability to achieve each of the results, and, if it is determined that the program does influence the achievement of a particular result, to what ***degree*** does it impact the successful accomplishment of that result. A "0-4" scale is use, with "0" meaning that there is no degree of impact since there is no influence on the result and "4" meaning that it would be extremely difficult, if not impossible, for the City of Longmont to achieve the overall result if this program were not offered. The degree of impact for programs lessens as a score of "3", "2" or "1" is assigned, meaning that a program scored with a smaller number still is seen as influencing the achievement of a particular result but to a lesser degree, i.e., a score of "1" communicates that while the program influences a particular result, the City could most likely achieve that overall result even if the program did not exist. For every program and service offered by the City, the program scoring process helps clarify the relative influence that programs have on the results that the City exists to achieve – it will help to more clearly understand programs that are highly influential relative to results, as well as programs that have a lesser degree of influence.

The grading criteria established to score programs against the desired result, on a scale of 0 to 4, are:

- 4 = Program has an essential or critical role in achieving the Result
- 3 = Program has a strong influence on achieving the Result
- 2 = Program has some degree of influence on achieving the Result
- 1 = Program has minimal influence on achieving the Result
- 0 = Program has no influence on achieving the Result

SUMMARY ANALYSIS

Summary program data is presented by the "Number of Programs" and by the "Cost of Programs." The summary is rolled up to the department level, which may vary in size from very large to some individual services that are not a part of any one department. While that can lead to some significant differences it does reflect our organizational structure. Obviously, Public Works & Natural Resources is a very large department and along with the diversity of services within it there are almost half of the community-oriented programs residing in PWNR. Even still, the data summaries on the chart that follows show some range of diversity in regard to the influence on the vibrant amenities result. To see how an individual program's influence on the vibrant amenities result is scored you need to look at the list of individual programs included at the end of this report.

Of the 1,082 community-oriented programs citywide the following observations can be made:

Number of Programs:

- Community Services has the most programs that are essential to the Vibrant Amenities result (85 programs)
- Community Services has the most programs that have a strong influence on the Vibrant Amenities result (62 programs)

- PWNR has the most programs that have some degree of influence on the Vibrant Amenities result (58 programs)
- PWNR has the most programs that have a minimal influence on the Vibrant Amenities result (216 programs)
- PWNR has the most programs that have no influence on the Vibrant Amenities result (202 programs)

Cost of Programs:

- Community Services has the highest cost for programs that are essential to the Vibrant Amenities result (\$11.5 million)
- Community Services has the highest cost for programs that have a strong influence on the Vibrant Amenities result (\$3.6 million)
- Power & Communications has the highest cost for programs that have some influence on the Vibrant Amenities result (\$57.6 million)
- PWNR has the highest cost for programs that have a minimal influence on the Vibrant Amenities result (\$26.3 million)
- PWNR has the highest cost for programs that have no influence on the Vibrant Amenities result (\$7.7 million)

GENERAL FUND PROGRAMS

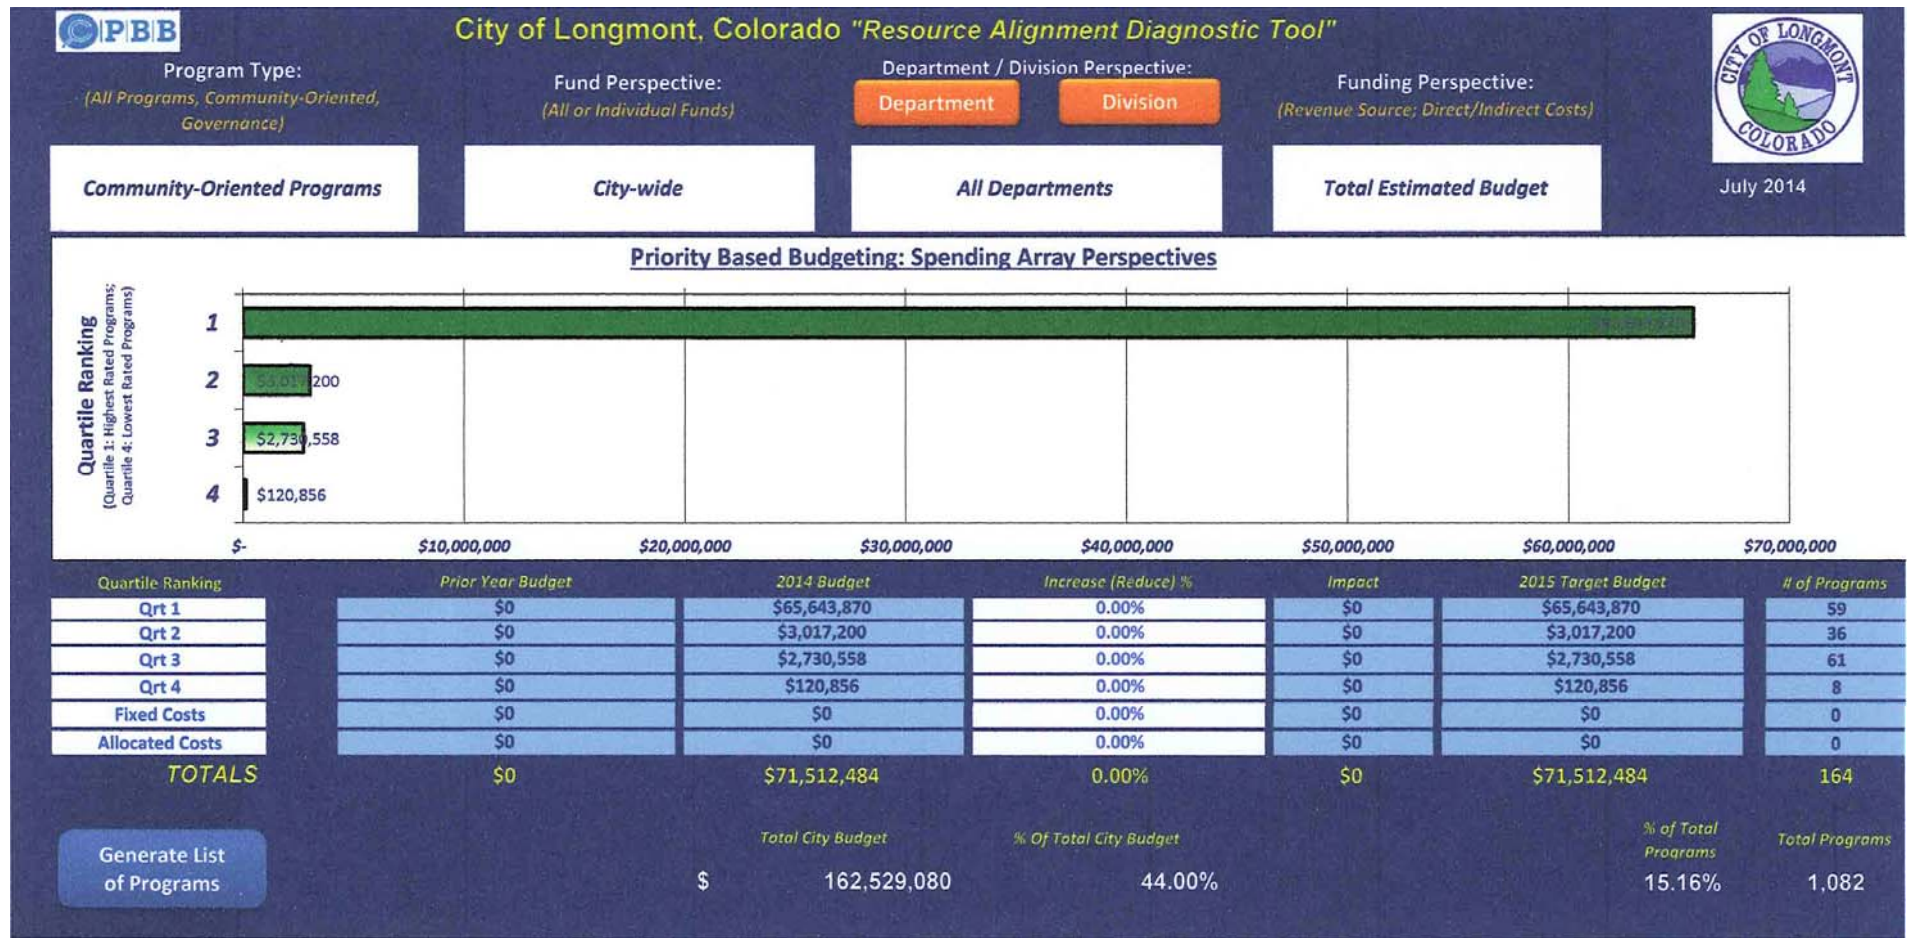

Of the 406 General Fund community-oriented programs, which account for \$51.75 million, as categorized by their influence on the Vibrant Amenities result, the distribution is as follows:

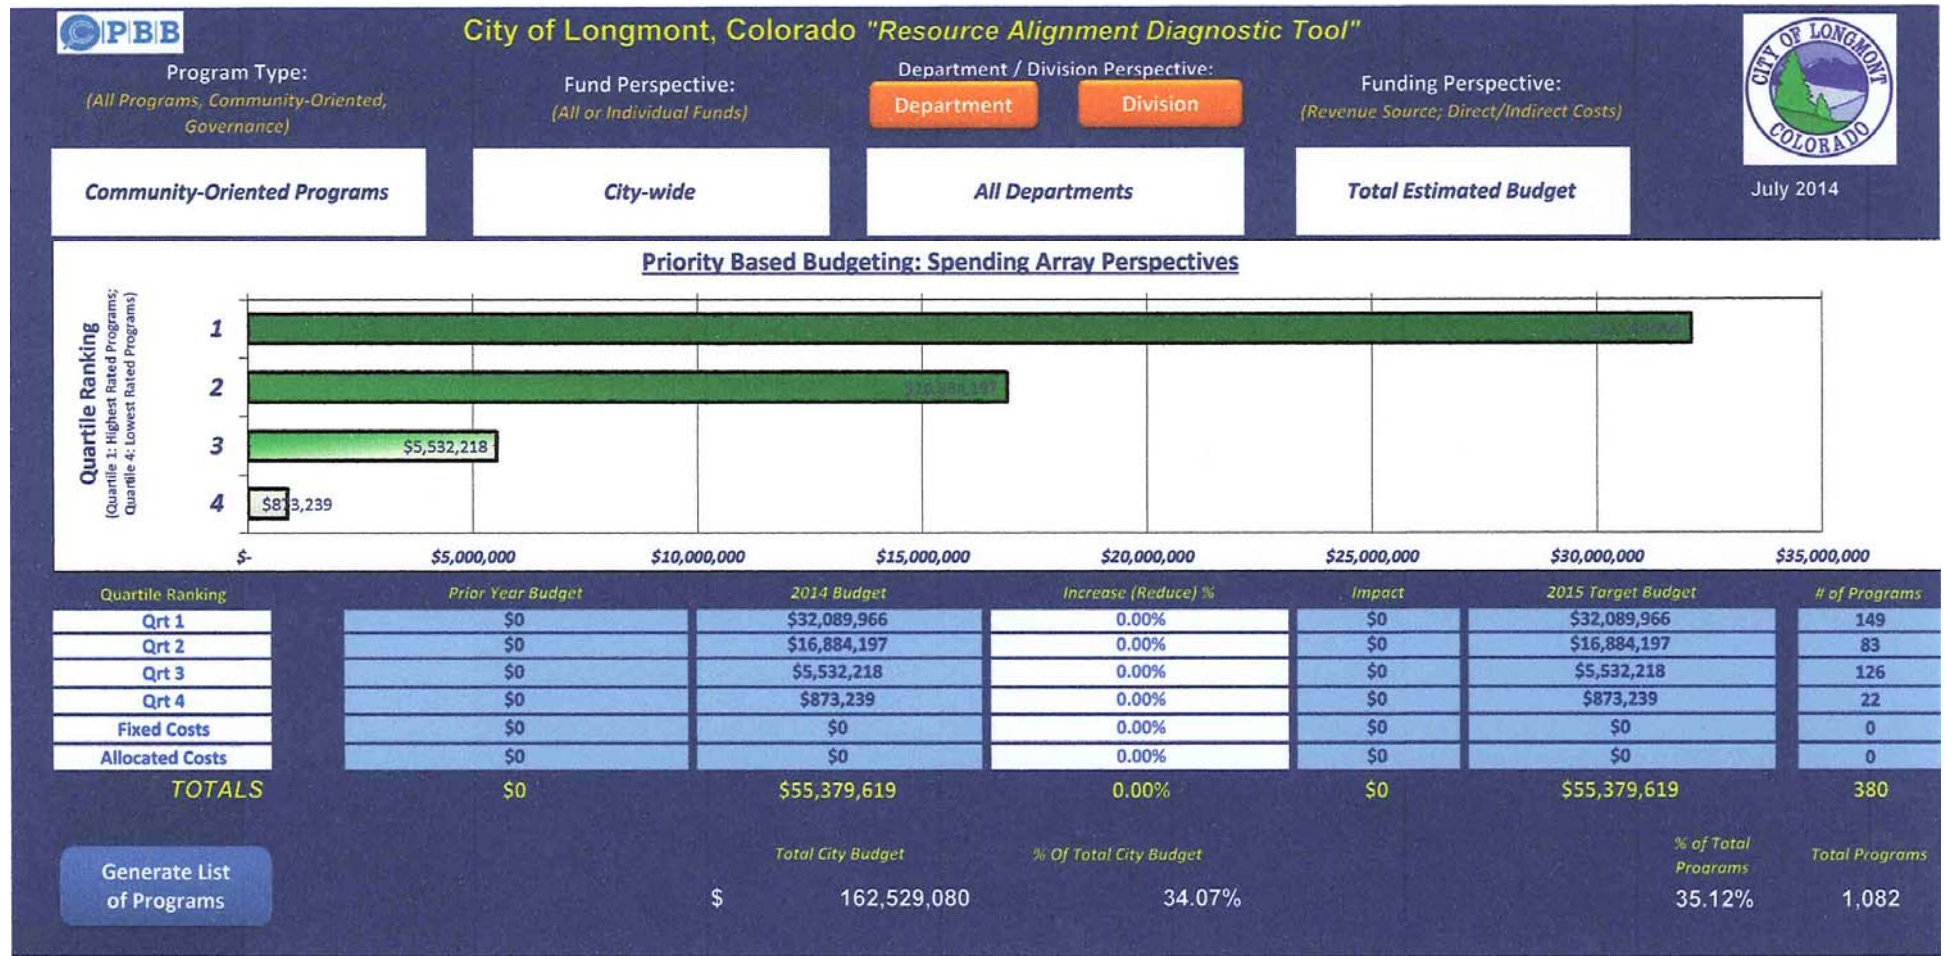

- Programs that are essential to the Vibrant Amenities result: 67 programs budgeted at \$9.37 million, which is 18.1% of the General Fund community-oriented programs total budget
- Programs that have a strong influence on the Vibrant Amenities result: 66 programs budgeted at \$5.1 million, which is 9.9% of the General Fund community-oriented programs total budget
- Programs that have some influence on the Vibrant Amenities result: 85 programs budgeted at \$9.1 million, which is 17.7% of the General Fund community-oriented programs total budget
- Programs that have minimal influence on the Vibrant Amenities result: 114 programs budgeted at \$23.4 million, which is 45.3% of the General Fund community-oriented programs total budget
- Programs that have no influence on the Vibrant Amenities result: 74 programs budgeted at \$4.6 million, which is 3.3% of the General Fund community-oriented programs total budget

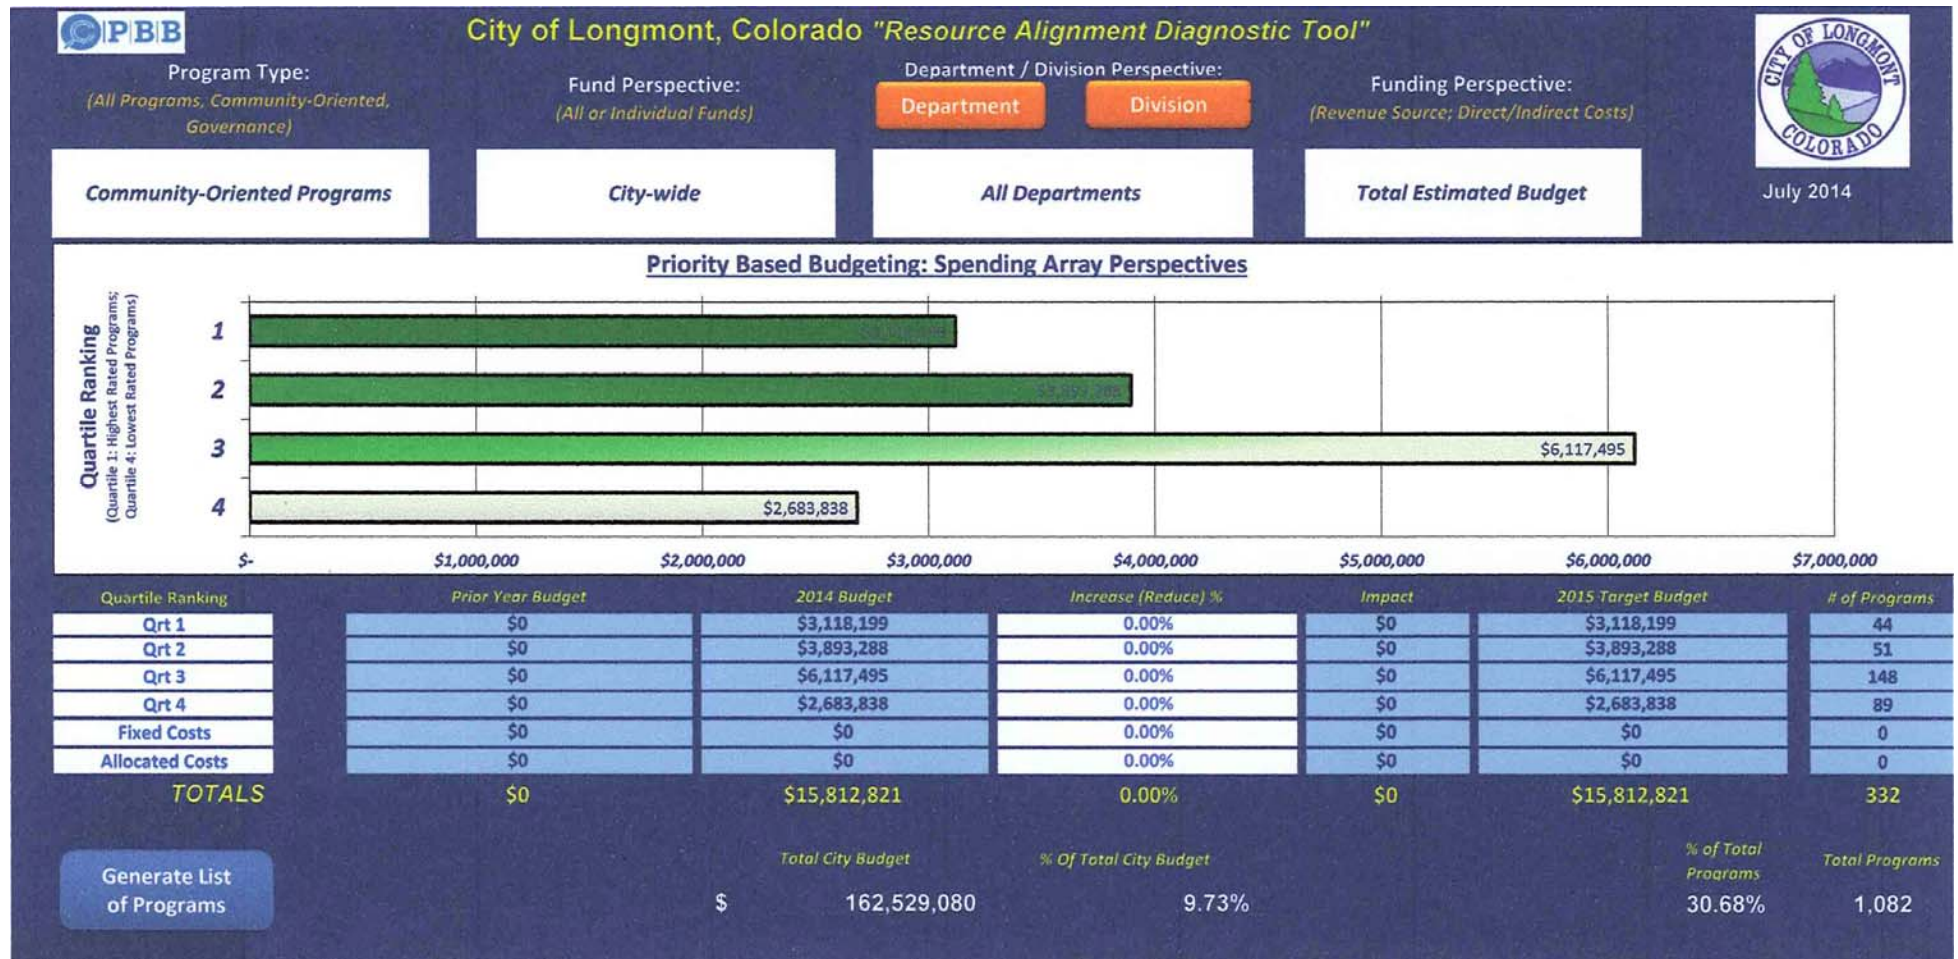

From this summary it can be drawn that 46.3% (188) of the General Fund community-oriented programs and 48.6% (\$28 million) of the budget for the same programs have no or minimal influence on the vibrant amenities desired result.
